ROBERT E. GARFIELD	1
An update on prevention and management of preterm birth	
M. TORRICELLI, M. DE BONIS, C. VOLTOLINI, N. CONTI, L.R. GALEAZZI, F. VELLUCCI, F.M. SEVERI, F. PETRAGLIA ...	3
The uterine myocyte as a target for prevention of preterm birth	
B.F. MITCHELL, H.N. AGUILAR, A. MOSHER, S. WOOD, D.M. SLATER	14
Metabolic Modulation of the Myometrium and Labour, Term and Preterm	
M.P. HEHIR, J.J. MORRISON	24
Ion channels in uterine smooth muscle cells to regulate contractions during term and preterm delivery: - Role of non-selective cation channels and gap junctions.	
H. MIYOSHI, S. URABE, Y. KUDO	32
Use of Non-invasive Uterine Electromyography in the Diagnosis of Preterm Labour	
M. LUCOVNIK, Z. NOVAK-ANTOLIC, R.E. GARFIELD	38
Preterm Cervical Ripening in humans	
G. EKMAN-ORDEBERG, A. DUBICKE	45
Progesterone Action in the Myometrium and Decidua in Preterm Birth	
A.M. BLANKS, J.J. BROSENS	54
Use of progestagens during early pregnancy	
G. DANTE, V. VACCARO, F. FACCHINETTI	61
Progestagens for preventing preterm birth	
F. FACCHINETTI, V. VACCARO, E. ANNESSI, G. DANTE	67
Actions of progestins for the inhibition of cervical ripening and uterine contractions to prevent preterm birth	
R.-J. KUON, R.E. GARFIELD	74
Use of progesterone and progestin analogs for inhibition of preterm birth and other uterine contractility disorders	
R.E. GARFIELD, L. SHI, S-Q. SHI	84
Postterm pregnancy	
M. GALAL, I. SYMONDS, H. MURRAY, F. PETRAGLIA, R. SMITH	93
